Subject: Air Conditioner Controller Bids

School we are spending	control over any of our air conditioner units. At the High g \$20,000 per year for Honeywell to "monitor" our system. I in and have them turn the units on or off. There is no control res.
The Middle School and whatever they are set o	d Elementary are manually controlled only. This means in stays that way 24/7.
	its electronically controlled by our maintenance director. They ges and set to higher (or lower) temps after school and on
Elementary because we	the High School and Middle School. We did not bid the e need to resolve other issues before we put controllers in. I mmendation this weekend.
