

SOUTH SAN ANTONIO INDEPENDENT SCHOOL DISTRICT

Agenda Item Summary

Meeting Date: November 20, 2019

- Purpose: [] Presentation/Report [] Recognition [] Discussion/ Possible Action
[] Closed/Executive Session [] Work Session [] Discussion Only X Consent

From: Denise Orosco, Executive-Director of Student Services

Item Title: Approval of the 2019-2020 Campus' Targeted Improvement Plans

Description:

State intervention requirements require schools who earn an overall rating of an 'F' or 'D' or those who earn a 'D' in any domain must develop a targeted improvement plan addressing one of the six levers identified by the Effective Schools Framework (ESF). ESF provides a clear vision for what campuses and districts do to ensure an excellent education for all students. The statute also requires the TIPs be Board Approved. The campuses submitting a TIP are based upon the 2019 Accountability Results.

Historical Data:

Targeted Improvement Plans (TIP) have been submitted to the State in the past depending on accountability results; however, this is the first year the TIP follows the new ESF model which guides the campuses as they write their own TIP.

Recommendation:

Approve each campus' Targeted Improvement Plan for the 2019-2020 school year.

District Goal/Strategy:

Strategy 3: We will develop a strong support system which will provide meaningful and innovative instruction that promotes critical thinking and problem-solving.

Needs Assessment

Data Analysis Questions	What accountability goals for each Domain has your campus set for the year?	
	What changes in student group and subject performance are included in these goals?	
	If applicable, what goals has your campus set for CCMR and Graduation Rate?	

Self-Assessment Results

(To be completed if the campus HAS NOT had an ESF Diagnostic)

Use the completed Self-Assessment Tool to complete this section

Essential Action	Implementation Level (1 Not Yet Started - 5 Fully Implemented)
1.1 Develop campus instructional leaders with clear roles and responsibilities.	2

2.1 Recruit, select, assign, induct and retain a full staff of highly qualified educators.	3
3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	4
4.1 Curriculum and assessments aligned to TEKS with a year-long scope and sequence.	3
5.1 Objective-driven daily lesson plans with formative assessments.	3
5.3 Data-driven instruction.	4

Prioritized Focus Area #1		Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	3.1	5.1	5.3
Rationale	No buy in from campus staff for previous mission/vision statement. No identified core values centered around a safe environment & high academic expectations.	LO & DOL alignment w/instruction.	PLCs didn't focus on data processes & analyzation of DOL & assessment data.
Desired Annual Outcome	Adult & student behaviors will be aligned to campus mission & vision statements.	Visible alignment between LO, DOL, rigor of instruction.	Through PLC we are doing targeted data analysis for reteach and intervention.
Barriers to Address During the Year	Culture, habits, accountability, previous relationships.	Accountability.	No Previous structure for data analysis.

<p>Rationale</p>	<p>Teachers met in PLCs we have a structure planning time on Wednesdays. We include pd, training and data meetings. Teachers, Instructional coach, Math Facilitator will work collaborative to help with re-teach and plans for intervention.</p>	<p>Grade levels collaborate and develop Common Formative Assessments for Reading and Math and administer every 4 weeks. Grades 3-5 does benchmark assessments every semester, along with mock STAAR and the real STAAR. District and teachers create assessments based on the TRS units.</p>	<p>Teacher placement is largely driven by teacher/admin preference or where we think a teacher would best fit in a team. Student numbers also drive teacher movements among grades.</p>
<p>Desired Annual Outcome</p>	<p><i>The campus will use Common Formative Assessments every 4th and 8th week of each semester. Teachers will use Eduphoria to analyze test questions and target TEKS that students struggled with. Teachers will engage in Data Talks during our weekly PLC meetings to Target areas of concern and share strategies with their team members.</i></p>	<p>Data will be analyzed to help identify skills needing to be readdressed. Common formative assessments (CFA's every 4 weeks) and interim assessments will be used to help identify areas where expectations were not met, and may need additional time and attention.</p>	<p><i>Hire and maintain Highly Qualified Teachers that will provide students with consistent and entralling instruction. In addition, hire staff that will assist Highly Qualified Teachers in the classroom and adhere to campus needs. Attain staff whose vision aligns with campus mission.</i></p>

Essential Action	5.3 Data-driven instruction.	4.1 Curriculum and assessments aligned to TEKS with a year-long scope and sequence.	2.1 Recruit, select, assign, induct and retain a full staff of highly qualified educators.
Desired Annual Outcome	The campus will create/establish Common Formative Assessments every 4th and 8th week of each semester. Teachers will use Eduphoria to analyze test questions and target TEKS that students struggled with. Teachers will engage in Data Talks during our weekly PLC meetings to Target areas of concern and share strategies with their team members.	To use TEKS Resource System Year-at-a-Glance to help facilitate structure for ensuring quality delivery of curriculum. Lead4Ward will be used for a more prescriptive approach. All teachers receive professional development (see dates below). Teachers will be continually update data database while focusing on areas of low performance for targeted instruction with fidelity.	Hire and maintain Highly Qualified Teachers that will provide students with consistent and entralling instruction. In addition, hire staff that will assist Highly Qualified Teachers in the classroom and adhere to campus needs. Attain staff whose vision aligns with campus mission.
Desired 90-day Outcome	We will see an improvement in individual students mastering objectives on Common Formative Assessments. Teachers will also be using interventions/small groups to met the needs of all of their students.	Data will be analyzed to help identify skills needing to be readdressed. Common formative assessments (CFA's every 4 weeks) and interim assessments will be used to help identify areas where expectations were not met, and may need additional time and attention.	The administrative team, along with, CLT members or people who form part of the faculty body, can partake in the interview process i.e. screening and interviewing candidates.
Barriers to Address During this Cycle	Student absences result in them missing instruction and interventions.	Student excessive absences continue to be a barrier in student outcomes. Lack of attendance results in student missing critical instructional time which widens the learning gap.	Time constrains i.e. having a set time to hire a faculty or staff member but lacking qualified candidates.

Prioritized Focus Area #1		Prioritized Focus Area #2	
Essential Action	3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	5.3 Data-driven instruction.	

Rationale	We have a campus-wide vision/mission where all previous stakeholders may not have had input, however it needs to be revisited with current staff to develop a shared vision/mission.	We know how and where to get our data, however we need to improve on how to utilize data to increase student outcomes by implementing a consistent data analysis protocol.	
Desired Annual Outcome	Teacher behavior will align with the campus mission and vision to increase student achievement, student attendance, and parental involvement. Campus staff will be able to articulate, understand, and believe in the campus mission and vision. Campus staff will have a cohesive and shared ownership for student success.	PLCs are lead by ILT and follow a consistent DDI protocol for analyzing common assessments resulting in action plans to address student gaps.	
Barriers to Address During the Year	Teacher buy-in, time constraints in meeting with staff as whole campus.	Currently we have a 45 minute weekly PLC that may need to change to a 90 minute block every other week .	
District Commitment Theory of Action:		If the district provides the campus with access to external student support services; and the district's policies and practices align with and promote positive school culture; and the district continues to support best

Essential Action	5.1 Objective-driven daily lesson plans with formative assessments.	5.3 Data Driven Instruction	
Desired Annual Outcome	Students will know specifically, clearly, and explicitly what they should be attempting to learn. Including demonstration of learning and measured outcome.	PLC's are lead by ILT to follow district protocol of reviewing, planning and reteaching items after Benchmark and unit assesments.	
Desired 90-day Outcome	Teachers should have a clear understanding of the TEKS breakdown specific daily instruction.	Teachers and ILT follow protocol to review Benchmark results and follow data coaching plan to reteach prioritized standards	
Barriers to Address During this Cycle	Extended planning time and lack of content knowledge.	Knowledge of effective instructional management	
District Actions for this Cycle	The district ensures access to high quality curriculum guides and common formative assessment. The district provides professional development trainings in the content areas of reading and math.	Principal ensures that data coaching plans are complete with time frames for reteach and review. Principal also ensures that students are showing their work on all assessments.	
District Commitments Theory of Action	If the Principal and ILT provide regular checkpoints with teachers and implementation of coaching plans provided by district, along with high quality assessments with immediate test results, then the campus will establish strong data-driven instruction practices, improve the quality of formative assessments, and campus ILT will effectively engage in instructional leadership activities.

2.1 Recruit, select, assign, induct and retain a full staff of highly qualified educators.	3
3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	2
4.1 Curriculum and assessments aligned to TEKS with a year-long scope and sequence.	2
5.1 Objective-driven daily lesson plans with formative assessments.	2

Prioritized Focus Area #1		Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	5.1 Objective-driven daily lesson plans with formative assessments.	1.1 Develop campus instructional leaders with clear roles and responsibilities.	
Rationale	Prior to this year, feedback was rarely provided on lesson plans. Lesson plans did not require time allotments or multiple, differentiated paths of instruction to meet needs of varied learners, or formative assessments with exemplar responses. If we are going to improve instruction and academic achievement, we need to strengthen both lesson plans (including effective LOs/DOLs) and our feedback on them.	New Instructional Leadership Team: New Assistant Principal, Instructional Coach new to campus, Counselor Vacancy	
Desired Annual Outcome	Teachers use recurring PLC meetings to collaboratively plan effective lessons which include: clear objectives, opening activities, time allotments, multiple, differentiated paths of instruction to a clearly defined curricular goal, including paths to meet the specific needs of students with disabilities and English learners among other student groups, and daily formative assessments along with exemplar responses.	The Instructional Leadership Team (ILT) will engage in planning protocols, data protocols, and observation-feedback protocols to improve teaching and learning.	
Barriers to Address During the Year	1) In-depth understanding of lesson plan components such as LOs/DOLs, which will require further professional development; 2) Getting teachers comfortable with the PLC model for planning.	Time commitments and conflicts; adjusting to strengths and weakness of ILT members;

Reflection and Planning for Next 90-Day Cycle

Did you achieve your desired 90-day outcome? Why or why not?	Yes, Administrative Leadership Team huddled immediately after being introduced to district data analysis protocols and held fidelity to the full analysis process with all teachers, across the contents tested in grades 3-5. The team delivered the "State of the Campus" using beginning of year and first Nine Weeks data and included feedback from vertical teams of teachers. However, PLC structure was met with resistance from teachers on planning ELAR lessons. While there is a need to improve in creating effective learning objectives, there is also a need for teachers to better internalize lessons so that they are more effective	
Did you achieve your student performance goals (see Student Data Tab)? Why or why not?	Goals were met in 4 of 8 areas- there is a need to better develop lessons that include time stamps for components of both the ELAR and Math content blokcs.	
Review the necessary adjustments/next steps column above. What milestones from this cycle will you continue working on in the next cycle? What new milestones do you need to add to the next cycle?	Carryover Milestones	New Milestones
	1. Strategically schedule classroom walk through visits using GBF coaching frameowrk 2. Retool the PLC structure	Utilize the SBDM team to create time stamped lesson plan templates in grades K-5 for math and ELAR content blocks.

Essential Action	Implementation Level (1 Not Yet Started - 5 Fully Implemented)
1.1 Develop campus instructional leaders with clear roles and responsibilities.	3

3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	3

5.1 Objective-driven daily lesson plans with formative assessments.	3
5.3 Data-driven instruction.	3

Prioritized Focus Area #1		Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	5.1 Objective-driven daily lesson plans with formative assessments.	5.3 Data-driven instruction.
Rationale	We have struggled with minimal parent involvement. There were not an abundance of celebrations, meetings, and interaction between the faculty/staff and parents/guadians. When there has been opportunites for parents to come in, the school has seen very little turnout. It is the hope that increasing the turnout in school functions and participation in events will enhance the ability for teachers to speak with parents/guardians concerning their child's progress leaning to an environmet of student success.	We need to show an accountability of lesson plans with fidelity in implementing the standards. The expectation that as teachers input lesson plans, admin and instructional coaches will review lesson plans, perform observations, and give feedback on reinforcements and refinements. Teachers will provide students with quality DOLs that will give them daily data to check for student understanding and how teachers can evaluated their own teaching style to create student success.	We need to increase of percentage of students passing State Assessments. Growing more students from not meeting standard toward approaching will increase student progress. Teachers will input students grades on sheets to track students progress throughout CFAs, district benchmarks, and STAAR. They will be able to use the data as well as data coaching plans to base their instuction on students needs.
Desired Annual Outcome	Create a safe learning enviroment that promotes student success and community involvement. We want to build partnerships between faculty and families. Having many opportunities for parents to attend the school will allow for familiarity among the teacher and parent/guardian instilling that constant line of communication.	By creating high quality lesson plans, all students will be working toward growth in reaching their grade level. Admin and instructional coaches will constantly give feedback to enhance best teaching practices in each classroom.	Teachers will input students grades on sheets to track students progress throughout CFAs, district benchmarks, and STAAR. They will be able to use the data as well as data coaching plans to base their instuction on students needs.The desired outcome is to increase on positive students outcomes and close the gaps across grade levels.
Barriers to Address During the Year	Changing the mindset of parents/guardians in knowing that they are an important part of their children and school's success. We will strive to give parents many notices (notices, marquee postings, twitter postings, blackboard call outs, face to face invitations) of events within a resonable time frame as to when they would be able to attend. We face barriers such as stability in homes, work schedules, and intimidation in coming on to campus.	Many students have gaps in prior learning. Students lack the concept of not having a growth mindset. Teachers are faced with a learning curve with new ELAR standards and adoption of HMH. There are also new expectations from balanced literacy.	Focusing on how to disaggregate the data and apply to classroom instruction. Take time to look at the data and come up with an intervention plan that addresses the gaps in student learning.

Essential Action	3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.		5.1 Objective-driven daily lesson plans with formative assessments.			5.3 Data-driven instruction.		
Desired Annual Outcome	Create a safe learning enviroment that promotes student success and community involvment. We want to build partnerships between faculty and families. Having many oppourtunities for parents to attend the school will allow for familiarity among the teacher and parent/guardian instilling that constant line of communication.		By creating high quality lesson plans, all students will be working toward growth in reaching their grade level. Admin and instructional coaches will constantly give feedback to enhance best teaching practices in each classroom.			Teachers will input students grades on sheets to track students progress throughout CFAs, district benchmarks, and STAAR. They will be able to use the data as well as data coaching plans to base their instuction on students needs.The desired outcome is to increase on positive students outcomes and close the gaps across grade levels.		
Desired 90-day Outcome	Establishing events/celebrations that allows for oppourtinites for admin, teachers to communicate with parents.guardians. Establishing this interaction among parents/guardians and staff will allow parents/guadians to feel comfortable attending the school. We will utilize different forms of communication to parents/guardians to notify them of oppourtinites to come to campus.		Set up a google doc location that all teachers can input lesson plans to. Admin and instructional coaches will review lesson plans and use as a resource when observing classrooms. Admin and ICs will check accountability of lesson plans with fidelity in implementing the standards. Teachers will provide students with quality DOLs that will give them daily data to check for student understanding and how teachers can evaluated their own teaching style to create student success.			Teachers will give a daily assessment (DOL) to track what students have learned daily. Data from Common Assessments will be charted to track progress during common assessments, district benchmarks, and STAAR. Data will be broken down to denote how students answered questions thus allowing teachers to create a plan to address intervention techniques. They will be able to use the data as well as data coaching plans to base their instuction on students needs.		
Barriers to Address During this Cycle	Parent/guardians work schedules. Breaking the barrier of parents/guardians feeling intimated by staff and school. Reflection and Planning for Next 90-Day Cycle								
Did you achieve your desired 90-day outcome? Why or why not?			Processes are in place to ensure that we on track with meeting our 90 day outcome. We are having ample opportunities for parental involvment. As well we our incorporating our revised way of breaking down data after common assessments to ensure we are reaching those students that are struggling in certain TEKSs to endure success for future assessments.					
Did you achieve your student performance goals (see Student Data Tab)? Why or why not?			In 5th grade we did meet our goals. We still have work to do to meet our 3rd and 4th performance goals. Students are struggling with reading on grade level.

Assurances

DCSI	I, the District Coordinator of School Improvement, attest that I will provide or facilitate the provision of all the necessary district-level commitments and support mechanisms to ensure the successful implementation of the Targeted Improvement Plan for this campus. I understand I am responsible for the implementation of all intervention requirements. If I am the principal supervisor, I understand I am responsible for ensuring the principal carries out the plan elements as indicated herein.	Denise Orosco
Principal Supervisor <i>(Only necessary if the DCSI is NOT the Principal supervisor)</i>	I, as supervisor of the principal for this campus, attest that I will coordinate with the DCSI to provide or facilitate the provision of all the necessary district-level commitments and support mechanisms to ensure the principal I supervise can achieve successful implementation of the Targeted Improvement Plan for this campus. I understand I am responsible for ensuring the principal carries out the plan elements as indicated herein.	Lorraine DeLeon
Principal	I, as principal for this campus, attest that I will coordinate with the DCSI (and my supervisor, if they are not the same person) to use the district-provided commitments and support mechanisms to ensure the successful implementation of the Targeted Improvement Plan for this campus. I agree to carry out the plan elements as indicated herein.	Jo Ann Buchanan

Needs Assessment

Data Analysis Questions	What accountability goals for each Domain has your campus set for the year?	Domain 1: 65 Domain 2: 70 Domain 3: 60
	What changes in student group and subject performance are included in these goals?	An effort to address the Special Education students in all tested subject levels and focus upon their specific learning disabilities to ensure we are moving their performance levels up.
	If applicable, what goals has your campus set for CCMR and Graduation Rate?	N/A

Essential Action	5.1 Objective-driven daily lesson plans with formative assessments.	5.3 Data-driven instruction.	
Rationale	Although, teachers developed lesson plans together, content knowledge varied amongst the grade level teams. Standards based lesson planning was new to staff.	Although data was disaggregated, tracking and monitoring of student progress was not consistently monitored.	
Desired Annual Outcome	All grade level teachers develop standards-based lessons with clear objectives and demonstrations of learning, including multiple response strategies and the gradual	Use data to drive instruction and interventions and be more consistent with instruction. 100% of teachers will utilize a tracking tool to monitor student	
Barriers to Address During the Year	Comfort with developing standards-based lessons and demonstrations of learning. Allocating appropriate time for the lesson plan development.	Lack of professional development regarding data disaggregation and student progress monitoring.	

District Commitment Theory of Action: If the district provides effective systems to assist the campus in identifying and supporting struggling learners; and the district continues to support best practices that reinforce effective instruction in schools; then the campus will be able to develop protocols to strengthen data-driven instruction by also focusing on the creation of high-quality objective-driven daily lesson plans with formative assessments.

Reflection and Planning for Next 90-Day Cycle

Did you achieve your desired 90-day outcome? Why or why not?	Yes we have achieved our 90-day outcome for establishing and implementing our PLC's weekly and with fidelity. The teaching staff has been trained to use Eudophoria to analyze assessment data, including reading levels to drive instruction. Grades 3 and 4 ELAR teachers attended a summer training session for Balanced Literacy, which includes on-going training through out the school year.
Did you achieve your student performance goals (see Student Data Tab)? Why or why not?	We have met and exceeded our math goals for grades 3-5. This is due to ongoing unit assessments; the data is used to create and implement reteach and intervention lessons. The district has also provided on-going training to support and address any student needs. We did not meet our goals for 3-5 reading. Teachers are still working towards understanding and analyzing the new ELAR TEKS and newly adopted curriculum. 4th grade writing met and exceed our goal. 4th grade writing teachers are utilizing the "I" chart to teach writing and to target the revise and edit lessons the students need. 5th grade science did not meet our goal. As a campus we need to implement more on-going assessments to target and meet the needs of our students.

Prioritized Focus Area #1		Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	5.1 Objective-driven daily lesson plans with formative assessments.	5.3 Data-driven instruction.	
Rationale	Lesson plans differ from grade to grade with little to no consistency of pacing, structure, HOT questions or differentiation. Review of lesson plans is sporadic on Fridays with not structured protocol of look for's.	PLCs are traditionally led by administration and teachers take more of a passive role. All teachers need to take ownership of analyzing their data and driving informed and targeted classroom instruction.	
Desired Annual Outcome	Teachers will create lesson plans consistent with TLIM Empowered Instruction Template and timestamps. Administration team creates a Lesson Plan Protocol to assist in checks and balances of lesson plans to be completed weekly .	PLCs are teacher-led using data protocol consistently to analyze, inform, and drive instruction resulting in more efficient and effective instruction. Assessments for all grade-levels are utilized to gather meaningful data and used to create a data coaching plan to be implemented in the classroom.	
Barriers to Address During the Year	1. Teachers feeling comfortable adding in TLIM Empowered Instruction (needing more guidance on what it should look like in the plan) 2. Teachers pacing may not be consistent with timestamps on lesson plans. 3. Unforeseen conflicts or commitments in schedules preventing Admin. team from reviewing lesson plans.	Teacher proficiency analyzing data, using data protocols, coaching each other, and leading PLC. Administration enabling teachers to take the lead in implementing these expectations.

Cycle 4 90-Day Action Plan (June-August)

The purpose of this 90-Day action plan is to prepare for the upcoming school year.
The essential actions the campus prioritizes may have changed based on progress made in the school year or based on ESF diagnostic results.

Essential Action	Implementation Level (1 Not Yet Started - 5 Fully Implemented)
1.1 Develop campus instructional leaders with clear roles and responsibilities.	3

2.1 Recruit, select, assign, induct and retain a full staff of highly qualified educators.	3
3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	4
4.1 Curriculum and assessments aligned to TEKS with a year-long scope and sequence.	3
5.1 Objective-driven daily lesson plans with formative assessments.	3
5.3 Data-driven instruction.	3

Prioritized Focus Area #1		Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	5.1 Objective-driven daily lesson plans with formative assessments.	5.3 Data-driven instruction.	
Rationale	Last year lesson plans were checked and given feedback on the Google drive the first 6 weeks and it tapered off. The admin. was not on the same page. If the DDI is going to be effective, we need to strengthen both lesson plans with (LOs/DOLs) and our feedback on them on a more a consistant basis.	ILT did focus on data anlysis, however the focus was not on an individual basis (classes, teachers). There was not an official protocal set in place for data analysis that involved the teachers together with the ILT.	
Desired Annual Outcome	Teachers will use recurring PLC meetings to collaboratively plan and create high quality lesson plans (LO/DOL, instructional practices, & Exit tickets). Instructional Leadership Team will provide ongoing feedback to enhance best teaching practices within each classroom.	The ILT will lead PLCs and follow the DDI protocal after unit tests and district common and benchmark assessments. Reteach items will be included in the common assessments.	
Barriers to Address During the Year	a. ILT's skill in giving feedback on lesson planning b. Teacher receptivity to planning and feedback.	a. Teacher buy in standpoint. b. Time management for ILT to ensure high quality prep of data.	

District Commitment Theory of Action: If the principal meetings, VP meetings and IC meetings are all aligned to provide regular coaching and the implementation of the DDI will help develop the campus leadership team which can ensure all are on the same page.

Desired 90-day Outcome	The main focus of the PLCs will center around planning (emphasis on LOs and DOLs for math and reading on a rotating basis). Feedback on rigor and alignment to standards.	The ILT will lead PLCs and follow the DDI protocol after district assessments (math unit assessments, common assessments and benchmarks). The reteach of high priority standards will be mapped out and retaught within 3 days of DDI meeting(s).	
Barriers to Address During this Cycle	ILT's comfort with DDI content and taking a more active role in leading PLC's. Some teachers lack of prior prep. Teachers are faced with new ELAR standards and new (HMH) adoption. They (teachers) also face expectations for Balanced Literacy.	Teacher "buy in" for some of the staff (push back). Time management-lack of some teachers to prep before the DDI meetings.	
District Actions for this Cycle	District will provide BOY for new adoption, HMH. Also ongoing PD on Balanced Literacy for 4th grade and admin. team.	District will ensure that all district assessments are a good representation on what is being taught and where we need to go.

Reflection and Planning for Next 90-Day Cycle

Did you achieve your desired 90-day outcome? Why or why not?	The 90-day outcome is still in progress. Teachers are still going to trainings and implementing what is learned, but not to 100%. Face to face feedbacks continue for lesson planning, but running into some roadblocks with enough time to give quick turn around feedback.
Did you achieve your student performance goals (see Student Data Tab)? Why or why not?	This was the students first time testing for the school year. Most of the grade levels are behind schedule in teaching their TEKS and it was reflected on the Math test. Students are keeping track of their own data.

	The ILT will continue to do huddles and feedback sessions. K-4th still have more training in Balanced Literacy and Math.

Prioritized Focus Area #1		Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	5.1 Objective-driven daily lesson plans with formative assessments.	5.3 Data-driven instruction.	1.1 Develop campus instructional leaders with clear roles and responsibilities.
Rationale	Teachers were not held accountable for content and completion of lesson plans prior to this year. Lesson plans did not follow the lesson cycle.	Instructional leaders, teachers and students use data frequently to monitor academic growth.	Clear roles and responsibilities were not established for campus instructional leaders. Department heads need to lead PLC meetings with their departments and schedule monthly department meetings.
Desired Annual Outcome	All teachers create and submit daily lesson plans that include clear objectives, opening activities, time allotments that indicate the amount of time spent on each step of the lesson, multiple, differentiated paths of instruction to a clearly defined curricular goal, including paths to meet the specific needs of students with disabilities and English learners among other student groups, and daily formative assessments along with exemplar responses.	Immediately after each assessment instructional leaders, teachers and students will review data and use the data to plan for interventions, misconceptions and review before the next assessment using Deep Dive Analysis and student data trackers.	Campus instructional leaders have clear, written, transparent roles and responsibilities and core leadership tasks (including observations, debriefs, and leadership team meetings) are scheduled on weekly calendars
Barriers to Address During the Year	Negative teacher perception to the importance of lesson planning. Teachers have never been trained and held accountable for maintaining the lesson planning cycle.	Ensuring that teachers are using data in order to drive future instruction. Taking up classroom instruction time to review student data and set goals. Eduphoria to track student data is not yet fully functional.	Department heads have not been trained on leading PLCs. Clear expectations have not been established for department heads previous to this year.

District Commitment Theory of Action: If the district provides the campus with opportunities for ongoing support and coaching of the campus leaders; and the district provides low-performing schools the flexibility to address their unique needs; and

Clear roles and responsibilities were not established for campus instructional leaders. Department heads need to lead PLC meetings with their departments and schedule monthly department meetings.		
Desired 90-day Outcome	Teachers will turn in well thought out lesson plans including framing the lesson, direct teach, collaborative learning and demonstration of learning focusing on high level Tier 1 instruction. Lesson plans will also include scaffolded questioning and differentiated techniques for special populations.		Teachers, instructional leaders and students will utilize data deep dive analysis and data tracking sheets to analyze data within two days of assessments to plan for interventions, spiral misconceptions and drive future instruction.			Roles and responsibilities will be shared with all stakeholders of the instructional leadership team. Department meetings, Senior Staff meetings and Campus Instructional Leaders will meet regularly. Instructional Coaches will train Department heads to lead daily PLC meetings after attending training.		
Barriers to Address During this Cycle	Train teachers on the lesson planning cycle. Lesson plans will be turned in at a specific time in order for department heads and instructional coaches to review and provide feedback.		Provide teachers with training and implement Deep Dive Analysis for teachers to utilize after each assessment. Teachers will use a student data tracker with students after each assessment to review student progress.			Instructional coaches will attend PLC training from Solution Tree and train department heads. Meetings will be scheduled in advance for the first semester for the Campus Instructional Leadership Team, Senior Staff and each department.		
District Actions for this Cycle	The principal supervisor will coordinate district-wide trainings to support data driven instruction, multiples response strategies, and standards-based planning.		The principal supervisor will attend campus data meetings at the end of each common assessment.			The principal supervisor will attend PLCs and provide feedback on the agenda, planning activities and PLC deliverables.		
District Commitments Theory of Action	If the district provides the campus with opportunities for ongoing support and coaching of the campus leaders; and the district provides low-performing schools the flexibility to address their unique needs; and the district continues to support best practices that reinforce effective instruction in schools; and the district provides effective systems to assist the campus in identifying and supporting struggling learners then the campus will be able to develop campus instructional leaders with clear roles and responsibilities who are able to help the campus create and implement data protocols that strengthen their DDI by focusing on the development of high-quality objective-driven daily lesson plans with formative assessments.

Essential Action	3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	2.1 Recruit, select, assign, induct and retain a full staff of highly qualified educators.	
Rationale	Kazen re-opened and had short amount of time to prepare and develop routines and practices for new teachers. Additional support is needed. Students are also new to campus and need clear, specific expectations. Having students part of the process will help them develop a sense of ownership in routines and practices.	Based on the campus/student needs, teachers need additional support in positive behavior intervention support (PBIS), social emotional needs, and academic needs.	
Desired Annual Outcome	Positive school wide routines and structure procedures. Involving more parents; Communicating to parents school events.	Keeping high performing teachers	
Barriers to Address During the Year	Making sure to include everyone in the process - teachers, parents, and students	Time to meet and provide specific, immediate feedback with teachers to gauge progress

Essential Action	3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	1.1 Develop campus instructional leaders with clear roles and responsibilities.	2.1 Recruit, select, assign, induct and retain a full staff of highly qualified educators.
Rationale	Each department on campus is made up of 50% new staff. After meeting with the campus instructional leadership team and teachers, it was clear that the campus culture needed to be improved.	The Principal, Assistant Principal, Counselor, and Instructional Coaches are new. The leadership team will conduct a needs assessment and identify instructional priorities (PLC's, CILT meetings, common assessments, standards based lessons) and then define clear roles of who will lead these teams and who should be on each team.	Fifty percent of every department on campus has new teachers. The Principal, Assistant Principal, Counselor, and Instructional Coaches are also new.
Desired Annual Outcome	Campus culture will be one of accountability and growth mindsets where teachers willingly improve efficacy to increase student outcomes.	Campus leadership team has clearly defined roles & responsibilities and these are accessible to anyone who needs to review them. The CLT will meet regularly to discuss Essential Actions, teacher support plans, and campus priorities.	Build cohesive systems and structures for extended collaborative planning and training to increase teacher efficacy with regards to standards-based lessons, features of good first instruction, data-driven practices and active student engagement.
Barriers to Address During the Year	Administrative teams have changed over the last 3 years. Therefore, staff is less inclined to trust and follow through on directives/instructional initiatives.	Lack of a firm understanding of PLC's, standards-based lessons, and common assessments in regards to their impact on increased student outcomes.	Staffing pool was limited there were few candidates with experience, therefore teachers will require comprehensive professional learning opportunities.

Desired 90-day Outcome	Climate surveys show the majority of staff members report positive reviews of the campus administration and culture. Staff members work with the campus administrative team to implement strategies shared at feedback session resulting in enhanced instructional practices and increase student outcomes.	Campus leadership team meets daily both in the morning and afternoon to plan and debrief about any needs. Authentic feedback for walk throughs are aligned to specific roles & responsibilities created.	Admin and IC's identify staff members who need assistance in the classroom with management, content knowledge, etc . . . and then send those identified members to receive the proper professional development.
Barriers to Address During this Cycle	Time management to ensure one on one coaching sessions.	Walk through calibrations to ensure alignment of instructional standards.	Teachers understanding of components good first instruction, which students will need the intervention/reteach and how to track/monitor student progress.
District Actions for this Cycle	District policies and practices align with and promote positive school culture.	The district recognizes the unique needs of low performing schools and provides the flexibility to address those needs.	The district makes it possible for high needs schools to be fully staffed by July 1st.

Reflection and Planning for Next 90-Day Cycle

Did you achieve your desired 90-day outcome? Why or why not?	Yes, we did achieve our 90 day outcomes. We addressed culture to start the year with incentives, climate survey and PD's which are monitored for implementation. Admin huddles occur weekly as well as PLC's in all content areas. 2019 data was disaggregated and a state of the campus was completed with the staff to review data.
Did you achieve your student performance goals (see Student Data Tab)? Why or why not?	We did not achieve the Meets range goal in every area. However, in reviewing October benchmark data vs the data from the 2018-2019 first benchmark and STAAR we are on track to meet our goals and in some areas we are on track to surpass our goals. We have now been allowed to use comprehensive funds to purchase supplemental materials needed to assist our students in their learning. We are also working with teachers to calculate their data especially growth data for teachers to utilize to fulfill Domain 2.
Review the necessary adjustments/next steps column above. What milestones from this cycle will you continue working on in the next cycle? What new milestones do you need to add to the next cycle?	Carryover Milestones
	We will continue to do weekly admin huddles and PLC's. We will continue to diseggregate data which will assist us in Cycle 2 for the comparison of data per cycle.
	New Milestones
	None as of now. Cycle 2 milestones will be sufficient. Ongoing milestones will continue implementation into cycle 2.

Cycle 2 90-Day Outcomes (December-February)			
	Prioritized Focus Area #1	Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	1.1 Develop campus instructional leaders with clear roles and responsibilities.	2.1 Recruit, select, assign, induct and retain a full staff of highly qualified educators.
Desired Annual Outcome	Campus culture will be one of accountability and growth mindsets where teachers willingly improve efficacy to increase student outcomes.	Campus leadership team has clearly defined roles & responsibilities and these are accessible to anyone who needs to review them. The CLT will meet regularly to discuss Essential Actions, teacher support plans, and campus priorities.	Build cohesive systems and structures for extended collaborative planning and training to increase teacher efficacy with regards to standards-based lessons, features of good first instruction, data-driven practices and active student engagement.
Desired 90-day Outcome	Referrals have lessened on campus, less calls for administration to report to classrooms	Huddles are routine part of day AM/PM, 3-walkthroughs and 1-45 minute observation completed for every teacher	All new staff will have received PD deemed necessary by IC's and admin to assist with their classroom instruction.
Barriers to Address During this Cycle	Teachers who are brand new and have poor classroom management	Time to complete the walkthroughs and observations	Finding quality substitutes, appropriate PD within time-frame, cost of PD
District Actions for this Cycle	The district provides data systems to track pertinent school culture data	The district supports principals by protecting their time dedicated for school instructional leadership	The district effectively recruits adequate numbers of qualified candidates.

Cycle 4 90-Day Action Plan (June-August)

The purpose of this 90-Day action plan is to prepare for the upcoming school year.
The essential actions the campus prioritizes may have changed based on progress made in the school year or based on ESF diagnostic results.

	Prioritized Focus Area #1	Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	Climate surveys show the majority of staff members report positive reviews of the campus administration and culture. Staff members work with the campus administrative team to implement strategies shared at	Campus leadership team meets daily both in the morning and afternoon to plan and debrief about any needs. Authentic feedback for walk throughs are aligned to specific roles & responsibilities created.	Admin and IC's identify staff members who need assistance in the classroom with management, content knowledge, etc . . . and then send those identified members to receive the proper professional development.

DCSI	I, the District Coordinator of School Improvement, attest that I will provide or facilitate the provision of all the necessary district-level commitments and support mechanisms to ensure the successful implementation of the Targeted Improvement Plan for this campus. I understand I am responsible for the implementation of all intervention requirements. If I am the principal supervisor, I understand I am responsible for ensuring the principal carries out the plan elements as indicated herein.
Principal Supervisor <i>(Only necessary if the DCSI is NOT the Principal supervisor)</i>	I, as supervisor of the principal for this campus, attest that I will coordinate with the DCSI to provide or facilitate the provision of all the necessary district-level commitments and support mechanisms to ensure the principal I supervise can achieve successful implementation of the Targeted Improvement Plan for this campus. I understand I am responsible for ensuring the principal carries out the plan elements as indicated herein.
Principal	I, as principal for this campus, attest that I will coordinate with the DCSI (and my supervisor, if they are not the same person) to use the district-provided commitments and support mechanisms to ensure the successful implementation of the Targeted Improvement Plan for this campus. I agree to carry out the plan elements as indicated herein.

Essential Action	1.1 Develop campus instructional leaders with clear roles and responsibilities.	3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	5.1 Objective-driven daily lesson plans with formative assessments.
Rationale	We feel this is a need for our campus as we have a new administrative team. Additionally, the Principal is a first year Principal, and Assistant Principal and Academy Coordinator are first year administrators.	Campus did not have a mission or vision and no teachers were able to identify the core beliefs.	Prior to this year, no expectation that teachers lesson plan, no feedback on lesson plans, and obs show that it's likely that many aren't lesson planning; if DDI is going to be effective, we need to strengthen both lesson plans (with DOLs) and our feedback on them.
Desired Annual Outcome	For the administrative team to learn their roles in leading team members using agendas and tracking tools for their instructional responsibilities including observation/feedback cycles, PLCs, and data meetings while supporting each other while without overstepping their boundaries.	Staff members share a common understanding of the mission, vision, and values in practice which is reflected in the climate surveys.	Teachers use recurring PLC meetings to collaboratively plan parts of lessons (at least know & show charts, objectives, and exit tickets) and ILT leading meetings give feedback in meetings to help improve lesson plans
Barriers to Address During the Year	The administrative team needs to adjust to their new role as campus leaders in their respective areas while simultaneously working to improve the instructional program and coaching teachers.	Unifying staff and creating a common framework for implementing the vision, mission and core beliefs in daily decisions.	ILT's skill and confidence in giving feedback on lesson plans; ILT's ability to get into content-specific discussions; teacher receptivity to planning (and feedback)

Essential Action	1.1 Develop campus instructional leaders with clear roles and responsibilities.	3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	5.1 Objective-driven daily lesson plans with formative assessments.
Desired 90-day Outcome	ILT establishes recurring weekly meetings; first 6 weeks focuses on design and delivery of teacher training on DDI	PLCs prioritize planning (creating K&S charts for prioritized standards and creating exit ticket banks) every third meeting, w/ feedback on rigor and alignment to standards from PLC lead	Every PLC, led by a member of the ILT, follows DDI protocol after return of unit assessment results and reteach of prioritized standards occurs within three days of DDI meetings
Barriers to Address During this Cycle	ILT's comfort with DDI content and taking a more active role in leading PLCs	PLC leads' content knowledge for K&S creation; buy in for stronger PLC protocols (teacher perceived loss of autonomy?)	Knowledge of effective reteach (PLC leads and teachers); "public" analysis of assessment results in DDI meetings
District Actions for this Cycle	Principal supervisor attends DDI training with ILT and begins every other week coaching of principal, with coaching focus on implementation plan, pd plan for DDI roll out, and systems that protect ILT's time to focus on instructional leadership.	Principal supervisor supports ILT in accessing unit tests in advance and identifying which standards are prioritized in unit test to support PLC planning.	Principal supervisor ensures that unit tests are edited with clear instructions that students show all their work on the assessment itself so teachers can use for DDI; PS also ensures unit tests are graded and returned to campus within two days.

Reflection and Planning for Next 90-Day Cycle

Did you achieve your desired 90-day outcome? Why or why not?	We achieved our 90-day outcome by creating a foundation for future progress
Did you achieve your student performance goals (see Student Data Tab)? Why or why not?	Yes, 5 out of 10 categories showed significant growth, 2 out of 10 categories remained about the same and 3 out of 10 showed regression on our first district benchmark when compared to last year's STAAR scores.

Desired 90-day Outcome	ILT reviews unit test data and aligns observation schedule with test results	Teachers plan for teaching of prioritized standards w/ know & show and exit ticket banks on a recurring basis as observed by PLC lead in PLCs	PLCs conduct data meetings with fidelity (WDM template) for common weekly assessments as well as unit tests
Barriers to Address During this Cycle	Shift from observations conducted routinely for all teachers to more frequent observations for struggling teachers - have to ensure struggling teachers feel supported not targeted	Maintain quality/frequency of feedback from PLC leads	Quality of common assessments - will they produce analyzable data that leads to strong reteach?
District Actions for this Cycle	Principal supervisor attends DDI training with ILT and continues every other week coaching of principal, with coaching focus on conducting data meetings and translating unit test results into observation plans	Principal supervisor supports ILT in accessing unit tests in advance and identifying which standards are prioritized in unit test to support PLC planning.	Principal supervisor ensures that unit tests are edited with clear instructions that students show all their work on the assessment itself so teachers can use for DDI; PS also ensures unit tests are graded and returned to campus within two days.

Essential Action	1.1 Develop campus instructional leaders with clear roles and responsibilities.	3.1 Compelling and aligned vision, mission, goals, values focused on a safe environment and high expectations.	5.1 Objective-driven daily lesson plans with formative assessments.
Desired 90-day Outcome	ILTs calendars show 40% of time on IL actions, with time prioritized on teachers whose data shows significant gaps in student mastery of prioritized standards	Teachers make adjustments to lesson plans based on recurring analysis of exit tickets (observed by PLC lead in PLCs)	80% of students master priority standards after reteach
Barriers to Address During this Cycle	Time management of the ILT; systems to protect/prioritize IL time (discipline, parents, etc.)	Balancing planning adjustments w/ space in the scope and sequence; teacher buy in to	Nothing new - quality/rigor of retest questions?
District Actions for this Cycle	Principal supervisor attends DDI training with ILT and continues every other week coaching of principal, with coaching focus on principal coaching ILT to conduct effective data meetings with a focus on high-quality reteach plans	Principal supervisor supports ILT in accessing unit tests in advance and identifying which standards are prioritized in unit test to support PLC planning.	Principal supervisor ensures that unit tests are edited with clear instructions that students show all their work on the assessment itself so teachers can use for DDI; PS also ensures unit tests are graded and returned to campus within two days.

Essential Action			
Desired Annual Outcome	For the administrative team to learn their roles in leading team members using agendas and tracking tools for their instructional responsibilities including observation/feedback cycles, PLCs, and data meetings while	Staff members share a common understanding of the mission, vision, and values in practice which is reflected in the climate surveys.	Teachers use recurring PLC meetings to collaboratively plan parts of lessons (at least know & show charts, objectives, and exit tickets) and ILT leading meetings give feedback in meetings to help improve lesson plans

Cycle 4 90-Day Action Plan (June-August)

The purpose of this 90-Day action plan is to prepare for the upcoming school year.
The essential actions the campus prioritizes may have changed based on progress made in the school year or based on ESF diagnostic results.

	Prioritized Focus Area #1	Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	ILT establishes recurring weekly meetings; first 6 weeks focuses on design and delivery of teacher training on DDI	PLCs prioritize planning (creating K&S charts for prioritized standards and creating exit ticket banks) every third meeting, w/ feedback on rigor and alignment to standards from PLC lead	Every PLC, led by a member of the ILT, follows DDI protocol after return of unit assessment results and reteach of prioritized standards occurs within three days of DDI meetings

Essential Action	5.1 Objective-driven daily lesson plans with formative assessments.	5.3 Data-driven instruction.	4.1 Curriculum and assessments aligned to TEKS with a year-long scope and sequence.
Rationale	Increasing the focus on good first instruction, there has been an emphasis on the planning process. Leadership is providing lesson plan feedback and following up on implementation.	Need to restructure PLCs to focus specifically on anticipation of student misunderstandings as well as to determine time spent on certain concepts. Provide opportunity for modeling, developing exemplars and adjusting instruction and assessments. Need to assess data weekly.	Address the content and rigor of our curriculum and student assessments from DOLs, to benchmarks, to common formative assessments. Need to ensure that instruction is aligned with student expected outcomes and supporting our instructional initiatives.
Desired Annual Outcome	Teachers begin to address student needs and misunderstandings during the planning process which will allow them to implement appropriate and rigorous, engaging activities. A decrease in leadership feedback.	PLCs become teacher planned and lead. All PLC areas become more common and consistent.	Students are gradually exposed through the instruction/curriculum to meet the rigor of the various levels of assessment.
Barriers to Address During the Year	Teacher openness. Follow up on the leadership side. Skill level to monitor and adjust. Accurate and consistent feedback.	Teacher openness.
