Re: Board Committee Meeting November 1, 2010

As we move forward with the recommendations made by the AdvancED visiting team awarding Livonia Public Schools District Accreditation, a testing warehousing system called CLASS A is being implemented. In order to do this, teachers need to be able to scan tests into CLASS A using our copiers.

A necessary component is purchasing Windows RDS users' licenses for staff. This software is on the REMC bid list. Microsoft sells their licenses on a potential user basis. We need to purchase 2500 licenses at a cost of \$39,875. The funds for this will come from the B4 Technology Fund.

We will be asking the Board to allow us to order this software prior to the November 15, 2010 voting meeting.

If Board Members have any questions, please contact Sheila Alles or me.
