### **Staff Development**

Staff development is viewed by the Board of Education as a continuous, systematic effort to improve education in this school district. In our rapidly changing society, teachers must review on an ongoing basis curricular content, teaching methods and materials, educational philosophy and goals, social change, and other topics relating to education.

Each certified employee shall annually participate in a program of professional development, of not fewer than eighteen hours in length, of which a preponderance is in a small group or individual group settings. The professional development program shall:

1. be a comprehensive, sustained and intensive approach to improving teacher and administrator effectiveness in increasing student knowledge achievement;
2. focus on refining and improving various effective teaching methods that are shared between and among educators;
3. foster collective responsibility for improved student performance;
4. be comprised of professional learning that is aligned with rigorous state student academic achievement standards, conducted at the school among educators and facilitated by principals, coaches, mentors and distinguished educators or other appropriate teachers, occurs frequently on an individual basis or among groups of teachers in a job-embedded process of continuous improvement, and includes a repository or best practices for teaching methods developed by educators within each school that is continuously available to such educators for comment and updating; and
5. include training in culturally responsive pedagogy and practice.

Staff development experiences, made available by the Board directly, through a RESC, with another Board of Education or through a provider approved by the Commissioner, shall be consistent with any goals identified by the certified employees and the Board.

The Board believes that staff development experience should be comprehensive, sustained, and intensive enough to improve teacher and administrator effectiveness in raising student performance, and foster collective responsibility for improved student performance.

### **Staff Development (continued)**

In order to ensure the continued development and improvement of staff performance and attitudes, the Board of Education requires that there shall be an organized staff development program for all certified personnel. The Board shall establish a Professional Development and Evaluation Committee, consisting of certified employees and including their union representatives, and other school personnel the Board deems appropriate. The duties of the committee shall include, but not be limited to, the development, evaluation and annual updating of a comprehensive local professional development plan for certified employees of the District. Such plan shall (1) be directly related to the educational goals proposed by the Board pursuant to C.G.S. 10-220(b), (2) be developed with full consideration of the priorities and needs related to student outcomes as determined by the State Board of Education, and (3) provide for the ongoing and systematic assessment and improvement of both teacher evaluation and professional development of the professional staff members of the Board, including personnel management and evaluation training or experience for administrators.

The members chosen by the Board to be on the Professional Development and Evaluation Committee shall serve at the pleasure of the Board.

Any such advisory committee assisting in or responsible for the planning of staff development activities shall take into consideration, at least the following:

- a. An assessment of immediate and long-term needs at these levels: district, building, and individual
- b. The identification of programs and activities suitable to meet these assessed needs

Furthermore, training opportunities for certified staff should be rich and varied. Special emphasis should be placed on preparing teachers and other school personnel to meet the needs of students with a wide range of academic, social, and emotional requirements and from diverse cultural and ethnic backgrounds. Staff development activities should also respond directly to the educational requisites of the student body.

Such in-service training program for certified staff shall provide information on (1) the nature and the relationship of drugs and alcohol to health and personality development and procedures for discouraging their abuse, (2) health and mental health risk reduction education that includes, but need not be limited to, the prevention of risk-taking behavior by children and the relationship of such behavior to substance abuse, pregnancy, sexually transmitted diseases, including HIV-infection and AIDS, violence, teen dating violence, domestic violence and child abuse, (3) school violence prevention, conflict resolution, the prevention of a response to youth suicide and the identification, prevention of and response to bullying, (4) cardiopulmonary resuscitation and other emergency life-saving procedures, (5) the requirements and obligations of a mandated reporter, and (6) the detection and recognition of evidence-based structured literacy interventions for students with dyslexia, as defined in CGS 10-3d.

### Staff Development (continued)

- n. School administrators will communicate to individual educators their responsibility to participate in professional development activities agreed upon in the annual evaluation process.

**NOTE:** *The thrust of professional development focuses more on individual or small group job-embedded processes. School districts will need to evaluate the manner in which the data pertaining to the professional development program is managed and tracked. Previous methods used to track CEUs may be inadequate. Discussion is recommended with teachers to determine how best to document and track professional development activities in an efficient and accurate manner.
