ACTION

BACKGROUND INFORMATION

Our Policy Consultants at TASB have made recommendations related to several issues, but most importantly, implementation of STAAR End-of Course testing and impacts on associated Grading, Class Rank and Graduation Honors.

We have completed Policy questionnaires, deliberated extensively with Policy Consultants and discussed these issues with appropriate administrative and Site-Based personnel to arrive at recommendations for revised Policy.

Please review Vantage Points and recommended Revisions for this Update, and we will discuss details at meeting.

ADMINISTRATIVE RECOMMENDATION

Approve Policy revisions as recommended for Update 90.
