RISK MANAGEMENT RESOURCES

PROPERTY VALUATION

Accurate building and contents valuation is critical for maintaining adequate coverage of school assets. All too often, property values are a combination of in-house estimates with inadequate documentation of improvements or additions over the years. Rising construction costs combined with an outdated property valuation can create unacceptable exposure to the fund balance in the event of a major property claim.

INSURICA Education can provide annual property valuations to confirm the buildings and contents are properly valued at replacement cost.

FACILITY SURVEYS

Government codes often require schools to have a Multi-Hazard Emergency Operations Plan, including performing Safety and Security Audits. INSURICA Education can provide a school risk assessment, reviewing safety policies and training, as well as physical hazard risks to help the entity maintain the highest safety standards.

DRIVER TRAINING

School drivers work in a mobile, dynamic environment. Traffic, routes, weather, and passenger distractions can all affect driver performance. With so many commuters in their care, we want to ensure they have the best training available. INSURICA Education Driver Training provides bus and car driver education to help drivers improve and maintain the highest standard in public transportation

RISK MANAGEMENT RESOURCES (CONT.)

LIABILITY TRAINING

While some states provide some form of tort immunity, new liability issues such as social networking sites, “cyber bullying” and “sexting” are creating challenges for administrators as they develop policies in response to these issues. INSURICA Education offers an online liability training resource for all school employees, providing state-of-the-art training in critical issues such as child-safe environments, sexual harassment, discrimination and workplace ethics.

SAFETY AND SECURITY AUDITS

Many government codes require schools to conduct facility security audits frequently. Schools may also be required to report the results of security audits to state safety centers in addition to their local board of trustees. INSURICA Education can provide Safety and Security Audits for clients to help ensure compliance with state-mandated procedures and improve safety and security at all facilities.

OPERATIONAL DISASTER RECOVERY

If struck by a catastrophic event, schools must regain operational status as quickly as possible. Not only for business purposes — in many cases the use of public facilities will play a crucial role in community relief efforts. INSURICA Education/Agility Operational Disaster recovery provides school access to vital resources such as power generators, fuel, mobile offices/computing, satellite internet and phone connectivity — usually within 24/48 hours after notification.

YOUR CLAIMS MANAGEMENT PARTNER

Schools are a cornerstone of the local community. Not only responsible for serving the public, schools often act as community shelters in an emergency. If schools are not operational, often neither is the community.

Managing a catastrophic claim can be daunting and involves many parties with independent interests – claims adjusters, contractors, consultants, engineers, lawyers and others. INSURICA Education Claims professionals have unmatched experience in school claims, and is your partner in simplifying an otherwise complex process.

Why PCAT

Mission

PCAT was created to provide Member districts with a strategy to achieve the lowest long-term cost for property and casualty coverage via multi-year membership, rate and coverage stability, proactive loss prevention, and cash dividends.

Strength

PCAT provides multi-year risk management solutions for over 160 Texas school districts. With over \$96 Million in annual Member contributions, PCAT is the largest school risk program in the country devoted exclusively to property and casualty exposures.

Governance

PCAT is a Member owned-and-governed program. Member districts elect a five-member board of their peers to provide program governance ensuring the program is consistently aligned with the best interests of Member districts.

Non-Profit

PCAT's non-profit status ensures that any program funds not necessary for program operations are dispersed to Members via cash dividends. Since 2009, PCAT has returned over \$11,000,000 in cash dividends to Texas classrooms.

Interlocal

Formed under the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, the PCAT Interlocal Agreement enables Members to benefit from cost-saving multi-year agreements while meeting Texas Education Code section 44.031 Purchasing Contracts requirements.
