The fact that we have student council is amazing. I never had anything like that in my old school and with student council, we can fix problems and make everything fun. The teachers ask students what kind of things they enjoy and they make the learning and everything fun. So I think the student feedback is one of the best things about this school. I'm taking a survey about this school! I've never had anything like this at any school before and I love it.	The immaturity and disrespect of some classmates. I know it's not the schools fault but whatever.	It describes our amazing school perfectly.
