**Student Teachers**

We have 6 student teachers who are preparing for their take-over experience. I sent a letter out several weeks ago to inform families. Each student teacher is on a different time frame, but some will be starting after spring break. Their fulltime experience will last about three weeks.

**Parent Survey**

We sent a survey out to 3rd-5th grade families and we are working on a student friendly version with similar questions. Joe and I will also work on one that is targeted towards K-2nd grades. The results of these should be ready to present at the next board meeting.

## **Curriculum**

The elementary is looking at updating our materials to the newer version of Wit & Wisdom Called Arts and Letters. We are also reviewing all the areas of English Language Arts to ensure we continue to respond to what the data says about the needs of our students.

The state finalized new Social Studies standards, so we will be getting a team together to vertically align Priority Standards. We will also review and recommend new materials as well.
