HIDDEN VALLEY
HIGH SCHOOL
MUSTANGS!!

As it finally starts to warm up, Hidden Valley High School is taking proactive measures to prepare for next year the next couple of months. In light of finishing strong, we are focused on the here and now attempting to complete a good year where our students once again have had successes. One such is that of our Student Led Conferences that were held this last week. For all students in grades 9-11, we had an 88% completion rate after the two scheduled days of conferences. After this week, we will have had 100% of our students complete the process of the SLC and the benefits are impactful. Parent feedback was exceptional and we will continue to make some rigorous changes by grade level to make it even better in the future. This being said, students actually talking about their journeys and sharing moments of positivity is what the conference is all about. I love the fact that students can talk about weaknesses and strengths in a trusting format coupled with how they will affect the future. We have spent a large amount of time and energy on organizing our advisories and systemically working on work samples that are embedded in the curriculum. I believe this effort helps make our school exceptional as we personalize the experiences our students have here. I want to say thank you to all who played a role in this success as the SLC's were truly special.

My office is working diligently during the next month to provide a master schedule that works for all students. It is my hope that parents keep in mind that this process can create some frustration, but that we are committed to do what we can to meet the needs of every student in regards to scheduling. We are working with Rogue Community College and Klamath Community College to align more College Now (dual credit) opportunities for our students as well. We have added Child Development that is coupled with a lab experience in our new day care, as well as articulated 22 credits with KCC in Culinary Arts for next year. In total, our school will offer more than 160 college credits in our high school next year. We are extremely excited about this continued development and believe that this diversity in free college credit is of huge value to our students and families.

This year will be year two of the new format with Senior Super Stars or what some are calling the Clash of the County. It will be held at Grants Pass High School in the stadium and our school has won the competition the last four years. This change is attempting to recognize the traditional pieces of our senior class fundraiser spiced with some new fresh ideas. The new Clash of the County will be held on May 6th at 4:00pm at Mel Ingram field. Hope everyone can come and attend this great after-graduation fundraiser.

Our high school is looking forward to the completion of the 2017/18 school year with anticipation for the next as we plan and complete the steps necessary during May and June. This planning perspective helps creates a view for improvement that is rooted in what is best for our students. The planning and preparation by many is what makes Hidden Valley a place special and our next steps together will be fun...

Much Respect,

Daye Stone
Principal HVHS
