Buildings & Grounds

- Working with contractor for carpet replacement schedule for summer
- Working on timeline for Freezer/Cooler replacement this spring
Reviewing Arena Manager/Grounds Manager responsibilities between B&G Director and Community ED
- The district conducted 350-plus radon tests in February. Only one room throughout the entire district had results above the Minnesota Department of Health's action level. Staff determined that an HVAC override was limiting the amount of outdoor air entering that room. MDH requires that radon testing occur between Nov. 1 and March 31. We are confident that when we retest in November that results in that space will be below the MDH limit. The space is not a classroom.

Special Services

- The special education team is actively interviewing for their open paraprofessional and teaching positions.
- Special education staff from Sunnyside, Burnside, and Twin Bluff are scheduled to attend the August STAR training. This program provides a framework for teachers so that they can teach students the skills they need to make growth in a school setting.
- Special education teachers and paraprofessionals have registered for the required Crisis Prevention Intervention (CPI) training offered through GCED
