

Fee Proposal

Reimbursable Costs

The C2AE/Stantec team anticipates reimbursable expenses for this project. We expect those to include lodging, meals, loose printing of review drawings, printing and mounting of posters, and mileage at the current federal rate. These costs will be itemized on invoices and will be billed without markup. We have planned for two overnight stays. Other than the overnight stay following the public charrette day, lodging may not be necessary if the remainder of the public meetings are not before 11 am or after 5 pm.

Our not-to-exceed fee for reimbursable expenses is \$8,200.
