

Summer Curriculum Projects

SUMMER 2023

Driven by:

Staff

District

Purpose:

Curriculum
Framework for new
course

District-wide
program change

Instructional
support initiative

Modification of
existing course

Project Areas:

Elementary

Middle School

High School

SSO

ELL

Benefits:

Learning how to efficiently utilize our new upgrade to Adobe Creative Cloud 2023 in the classroom and creating new lesson plans based on the new technology

Designed and completed a writing contract and rubric for 6th grade for use across curricular areas

Began planning first and second units with experienced SS teachers
Discussed our grading policies and use of homework/independent practice

Rewrite curriculum to align with the new AP Precalculus presented by College Board

Identified Algebra 2 learning targets and tied to the SAT to ensure curriculum was not missing any assessed components. Created SAT like sample questions for curriculum

Correlated the new textbook with the units of study and aligned to course scope

Redesigned ELA curriculum within the SLC program to better align to general education curriculum

Developed template for class agenda that will be required in TEAMS and building PD plan for TEAMS work throughout school year

Gratitude:

Work was not accomplished alone. It took a lot of dedicated teachers working together...(time that is not readily available throughout the school year)

I feel more confident in my abilities to teach this new course.

We are thankful that we were able to have this time to work as a PLC to plan multiple new lessons.

Both instances of summer work will affect large numbers of students and staff and improve learning and teaching.

We appreciate this time and the value it has for our team. The time and work will greatly impact student success. We would love to share.

I appreciate being allowed this time to meet with other like teachers from other districts and collaborate.

This time was vital as I am teaching a new subject that I have never taught in the past.

As a new teacher (hired summer 2023) I feel better prepared to start the year and better acquainted with my colleagues.

Thank you & Questions
