

Maintenance Report – October

ADA Inspections: All schools and district buildings have completed ADA inspections. These are only inspections to find recommended upgrades to our buildings. Any issues found will be recorded for follow up work.

Staff Training: Maintenance staff are being trained on how to use equipment at our new sites. This includes safety, basic operation, and preventive maintenance. Training will continue into mid-October.

Homecoming Preparations: Maintenance, grounds, and custodian staff are helping with Homecoming setup. This includes preparing fields, setup, and cleanup.

Elevator Inspections: Elevators at the High School and Columbia Vista Intermediate were inspected. All passed with only small adjustments needed at the High School.

Sports Field Maintenance: Grounds crew are continuing regular work on sports fields. This includes mowing, irrigation, and reseeding. Extra attention is being given to the football, and soccer field due to the season.

Work Orders: Between our last board report to now, we have completed 147 work orders which does not including in person requests!
