

Hook Elementary
CIP Summary
2016-17

- Utilize technology to enhance the curriculum.
- Utilize the Digital Learning Integration Specialist to provide professional development for “evolving technology.”
- Conduct site visits to other districts at the top of our campus comparison group.
- Provide Writing with Numbers training for 3rd and 4th grade writing teachers with follow up training throughout the year.
- Provide Gomez and Gomez training and supplies to improve instruction in bilingual classrooms.
- Continue the partnership between the Bosque River Trail Coalition, Tarleton State University and the City of Stephenville to provide the Bosque River Adventure experience.
- Hook Elementary will participate in a school wide “Hour of Coding” to promote computer science awareness.
