

Contracts for Students Tuitioned In and Out 2024 – 25

Background:

Special education students, when served by a school other than their resident school district, must be contracted with the service provider.

Under Iowa law, only a school board can obligate the school district to a contract; however, confidentiality laws do not permit the public disclosure of those students who are in a special education program.

The following is a list of schools that are sending special education students to the Belmont-Klemme district for services (SpEd Tuitioned-in):

- Coulter-Alexander-Latimer
- Clarion-Goldfield-Dows
- West Hancock
- Garner-Hayfield-Ventura
- West Fork

Next, the list below is of schools currently providing special education services to Belmont-Klemme students (SpEd Tuitioned-out):

- Forest City
- Mason City
- Garner-Hayfield-Ventura
- Sioux City

Recommended Action:

I recommend the board approve contracts with the school districts listed above.
