INFORMATION

BACKGROUND INFORMATION: Beeville ISD students took the mandated 2009 Texas Assessment of Knowledge and Skills (TAKS) tests during the 2008-2009 school year. We have received the results and will briefly share the results with the Board. We have included Beeville ISD scores vs. State Scores. We feel that overall the students compared well with the state. We will be working with the principals, teachers, and staff of these campuses to assist the students to pass the test in the future. A Power Point presentation will be presented at the Board meeting. If you want to review the Power Point before the meeting, please go to <http://dci.beevilleisd.net/board.htm>.
