BABB BOARD REPORT

What We've Learned

In Math 3rd graders are working on equivalent fractions. The 5th and 6th are working on area and volume.

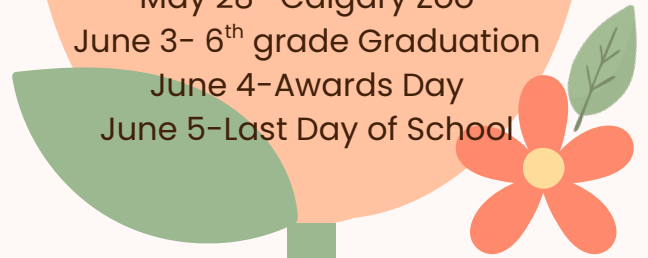

In ELA, we are learning about personification, and how to use it in our writing.

In Science, our unit is on Earth's Landscapes

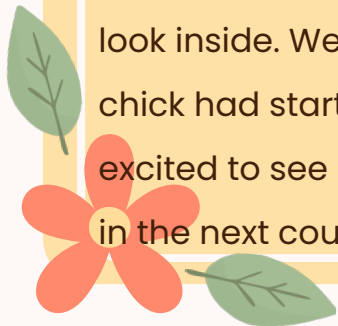

Reminders

- May 5 Bake Sale - Election Day
- May 8-Early Out
- May 12- Family Engagement
- May 15-Hike
- May 22- Early Out
- May 25- No School
- May 28- Calgary Zoo
- June 3- 6th grade Graduation
- June 4-Awards Day
- June 5-Last Day of School

Family Engagement

Cassie Powell donated an incubator and chick eggs to our school. She comes down to check them every 7 days to see if they are going to hatch. We had some that were not growing so the students opened the egg to look inside. We were able to tell that a chick had started to form. We are all excited to see if we have some hatch in the next couple of weeks.

Family/Teacher Conferences Grades 3-6

We had 100% of all of our families attend conferences! We appreciate the support you give our students. Thank you

BABB BOARD REPORT

Kindergarten:

Math: Students have been learning about shapes, greater than, less than, and equal to.

Reading: Students are learning to sound out words with the onset and rime.

Writing: Students are working on capitalization, finger spacing, plural nouns, and creating their own sentences with a sentence starter.

Science K-2

All students have been learning about plants and how to germinate seeds for their Mother's Day gifts.

1st Grade:

Math: Students are learning to make ten to solve number sentences.

Reading: Students are learning to blend sounds and build fluency.

Writing: Students are working on creating their own sentences using sentence starters, capitalization, and plural nouns.

2nd Grade:

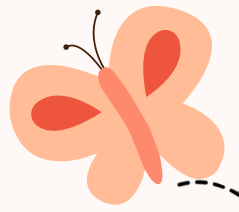

Math: Students are learning to add and subtract 3-digit numbers by composing and decomposing a ten.

Reading: Students are working on fluency and sight words to prepare for our AIMSweb testing.

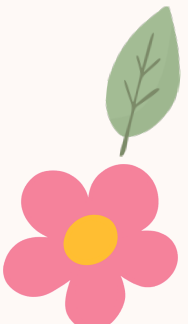

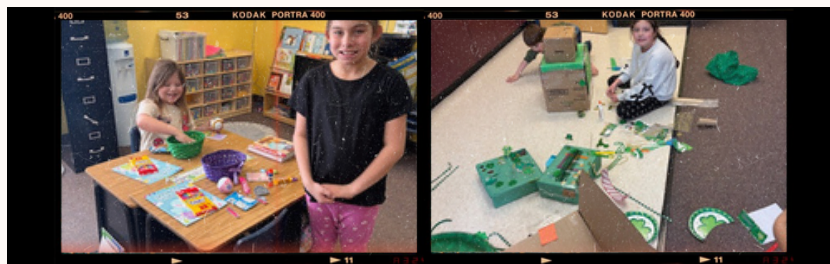

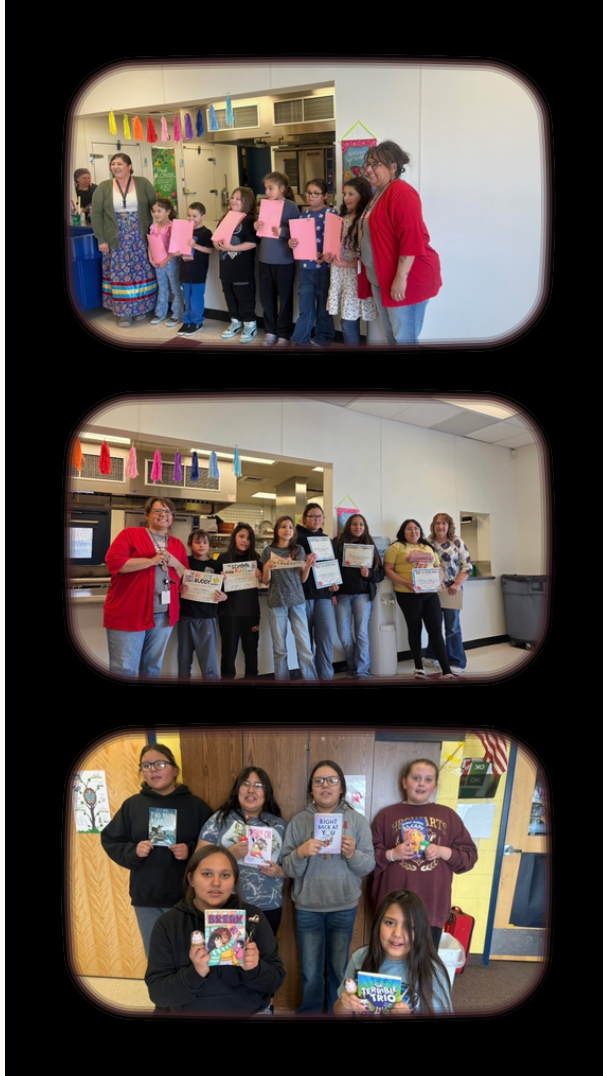

Writing: Students are learning to add more detail to their writing.
