

**Prospect Heights School District 23
Board Memorandum
Information Item**

Date: March 12, 2026

Subject: Restricted Use Signage

Prepared by: Don Angelaccio

Many neighboring Districts have issued resolutions and installed signage that prohibit the use of their school grounds for staging, processing, or operations by ICE. As I have shared previously, our focus as a school District must be on creating and maintaining a safe and welcoming learning environment for our students and staff. We must be clear about the parameters for access to our facilities as good stewards of these physical spaces as well.

As we have the ability to create and post signage on our school grounds, I am sharing this memo with the Board to share the plan for additional signage for all of the D23 properties:

1. We have estimated the cost of each 24" by 18" sign at \$30 and anticipate purchasing 20 for a total of \$600.
2. Signs will be attached to the exterior of buildings closest to parking lots and high enough off the ground to minimize vandalism but ensure visibility.
3. Signage will be added at all five of the District 23 buildings in both the front and rear.
4. The following graphic will be used

**This property is owned and controlled by Prospect Heights School District 23.
It may not be used as a staging area, processing location or operations base by any organization without prior authorization.**
