RE: 2026 Maintenance and Transportation Center Furniture Purchasing Recommendation

Dear Chris,

The new Maintenance and Transportation Center will receive new furniture this summer following the completion of the building. This purchase includes all loose furniture for reception/dispatch, offices, staff lounges and support spaces including conference room, mail and blueprint storage room spaces and includes all associated shipping and installation services.

Total cost: \$85,028.07

On behalf of GMB, our recommendation is to purchase this furniture through National and State cooperative purchasing contracts (all of which include pre-negotiated bid pricing). All furniture quoted will be purchased through the following contracts: E&I Cooperative Services - CNR01511 (monitor arms and wire management for workstations), OMNIA Partners- R240114 (lounge furniture and mobile blueprint storage) and the State of Michigan MiDeal- 22000000043 and #240000000497 (office furniture and seating). The product will be purchased through Interphase Interiors.

Sincerely,

GMB
