

DISCUSSION OF ACCELERATION ACADEMIES, LLC. PARTNERSHIP AGREEMENT AMENDMENT

On July 27, 2021 ECISD Board of Trustees approved the partnership between the District and Acceleration Academies to provide a high quality and high impact education program that targets dropout prevention and dropout recovery of students who are under 21 years of age and have not graduated from High School. This agreement may renew annually if certain requirements are met and can be amended following annual review. The current agreement has been reviewed and amended sections will be presented allowing Acceleration Academies to continue to recover students who have dropped out of school and provide an alternative for students who need credit recovery and are at risk of dropping out of school.
