Ouachita Valley Community Foundation	- Can you provide more information on what service the students will be providing and how it ties back to classroom learning?	As per email 6/1/20: Students will assist the foundation with clerical work, reinforcing several organizational and computer skills learned in the classroom. Students will also have the opportunity to assist the foundation in organizing events to help area non-profit organizations. This work will reinforce creativity and problem-solving skills. Working with the Ouachita Valley Community Foundation will give students a first-hand look at the importance of civic engagement in our community for a variety of community causes.
