

FEBRUARY NEWS

Hello Parents,

While January was filled with white snowmen, February will be filled with red, pink, and purple hearts.

We continue to use our standers, walkers, and complete range of motion for the students who need these activities. We are involved in sensory activities daily such as smell, touch, and sound. We also play with bubbles. Although it has been too cold to use our playground area, we are looking forward to using it again in the spring.

You will be getting a list of student's names soon. If your child would like to exchange valentine's we will do that activity on February 14th before we go to Parkdale for lunch and fun provided by Brooke (classroom supervisor). There will be no swimming on Valentine's Day.

Several students have used the I Pad we have in the room. Some students are using it for math and writing their letters. Some students look at fireworks and listen to stories.

Just a reminder we are collecting Box tops for education.

Until next time.....

Sharon, Chere, and Leanne
