Re: Superintendents Board Report

Updates

- After a two-week Covid pause in the session the legislature is back and moving quickly on legislation. We are watching closely the progress on the education funding bills and the potential impact for the district. A number of “interesting” bills have either been defeated or are being held in committees based on a decision of the committee chair. The legislative delay definitely shortens our window for having the budget ready for our June board meeting and getting ready for a May budget workshop.
- Last week we had a great board tour of the schools. The principals, staff and students did a fantastic job of representing what we want to be about. It’s always fun to see the staff and students in action.
