FROM: Samuel Mijares, Assistant Superintendent for C & I

RE: RAPTOR TECHNOLOGIES SOFTWARE

In an effort to keep our schools safe, I am recommending the purchase of the Raptor program for our district. Raptor Technologies, LLC is the sole source company that is the developer, owner, and sole provider of the web-based software application Raptor vSoft. It is the only web-based visitor management software in the United States that provides all of the following abilities and trade secret processes:

- ASP model designed, delivered and supported exclusively by the developer
- False Positive Logic – prevents continuous false positive on sex offender alerts
- Monitoring of potential sex offender alerts
- Screening for sex offenders in all 50 states
- Screening for parents with restraining orders, custody issues, and other custom alerts as designed for district needs
- Alert notification via text message to cell phone
- Alert notification via e-mail
- Emergency Alert button with alert notification via text, e-mail, and text to voice
- Secure History and Reporting features available from anywhere via internet

If you have any questions, do not hesitate to contact me at extension 1011.
