Dear Board of Education.

In our world, math matters. Providing our students an opportunity to pursue an advanced math curriculum is so important for their success. Please consider providing this option for families in our community.

We have reached out to Beecher administration for 3 years to inquire about an advanced math curriculum, and I can say with confidence, they have no intention of providing an advanced math curriculum without your intervention. To quote Principal Sherman,"We are just a public school." This was her response to an advanced math curriculum in our last face to face meeting with multiple teachers present.

Bless you folks who have devoted your time to improve the school environment. In our experience, our efforts seemed to go nowhere. As my friend said when we reviewed Beecher's standardized math test results, "They are above average at creating very average students." They seem content with the choices that have led to those results.

Cheers, George Hauser
