Superintendent's Recommendation

Recommendations for Hire:

Anna Reuter - UHS Science Teacher - Anna Reuter is an experienced and highly recommended educator with a strong background in hands-on science instruction. She taught primarily chemistry at Hermiston High School for seven years before being convinced to jump to Echo where, for the last three years, she taught all science classes for grades 7-12, including life science, earth science, physical science, biology, forensic science and dual-credit chemistry. Anna earned her Bachelor of Science degree from Washington State University in 2000 and completed her Master of Teacher Education (MTE) at Eastern Oregon University in 2007. Her career reflects a deep commitment to science education and student success.

Coaches:

Recommendations for Hire:

Trey Trevino - Head Girls Basketball Coach - Trey Trevino currently teaches 7th grade Language Arts at Clara Brownell Middle School where he also led the middle school boys basketball program. He played basketball collegiately and, despite his young age, has a variety of coaching experiences at the middle and high school levels across multiple sports and programs. But, perhaps his greatest strength is in his ability to build meaningful student relationships and leverage those relationships to get students to overcome adversity and accomplish challenging goals.
