

May 15th, 2018
Child Nutrition/Food Service
Board Report

On May 2nd Employees from Child and Adult Care Food Program came to our district for a pre approval meeting with us. After the meeting our district was approved to start a after school at risk supper program. The Supper program started the same day and the employees did come to the Napi and observed our supper program and was very impressed that we was able to start the program the same day we was approved. This program will run from May 2nd to June 1st Monday thru Friday 4:30pm to 7:30pm. It will start back up at the beginning of 2018-2019 school year. We are very pleased to have this program in place and the students have been enjoying nutritious meals in the evening.

The month of May is a extremely busy month of the Child Nutrition/Food Service. We are providing sack lunches for numerous end of the year field trips each day. We are providing end of the year BBQ for each school. We are cratering High School Graduation Banquet, Staff Appreciation Dinners, and numerous other activities.

June 4th will be the Summer Program Kick Off happening at the Browning Middle School with a BBQ menu and many different types of activities planned for the children. We are gearing up for another successful summer breakfast, lunch and dinner program.
