

Royalton Public Schools Medication Authorization Form 1C

MEDICATION ADMINISTRATION

(End of school year medication return)

Date: _____

Student Name: _____ Grade: _____

Re: Medication Return

Dear Parent/Guardian:

We are making plans to close out this school year. This includes seeing that the medication your child has left will get home in a safe manner. Please make arrangements to pick up the medication at school between the hours of 8-3:30 as no medications will be sent home with students for safety reasons. Any medication left in the building at the end of the last student day will be destroyed.

If your child needs to take a prescription medication during the school hours next school year, please have your health care provider complete form 1A (found on the school website under district policies) before school starts in the fall (this can be done during workshop week). Your authorization to administer medications is required as well. NO medications will be given to your child until the physician and parent/guardian signatures and are received and on the **same** order form. Bring the completed medication authorization form and the medication in a properly labeled container when school begins in the fall. For safety reasons, parent(s)/guardian(s) must bring in the medication, not the student.

In regards to nonprescription medications such as Tylenol (acetaminophen), Advil, Ibuprofen, Motrin, and Naproxen (Aleve) students in grades 7-12 may carry these medications **ONLY IF** a signed parent permission form **AND** a student contract with the nurse is completed. Also these medications are given based on the dosage indicated for your child on the bottle. If a higher dosage is needed, a doctor's authorization is required.

Thank you for your cooperation.
