

4.64—STUDENT USE OF ARTIFICIAL INTELLIGENCE

Definitions

“Artificial Intelligence (AI) Tools” means Software applications or platforms that utilize machine learning algorithms to perform tasks typically requiring human intelligence, such as generating content, providing recommendations, or solving problems. For purposes of this policy, AI tools does not include the use of spell check or grammar check.

The purpose of this policy is to establish guidelines for the responsible use of AI tools by District students. The policy applies to all students enrolled in the District and covers the use of AI tools when completing District assignments or projects.

The district shall provide teachers and students education on AI literacy and digital citizenship. The District shall establish a committee who shall be responsible for the review and selection of AI tools that may be available for students to use. All AI tools selected by the committee shall comply with applicable state and federal data privacy laws. Students shall only use AI tools that were approved by the District committee for classroom assignments or projects.

Teachers are responsible for providing instructions on which district approved AI tools may be used and when and how AI tools may be used for classroom assignments. Students may use AI tools as approved by their classroom teacher to enhance learning and develop future-ready skills.

Students should use AI tools ethically and responsibly, aligning with the district’s educational objectives, and in a manner that does not harm themselves or others. As part of using AI tools responsibly, students should be cautious about the information they provide to AI tools and consult with a teacher if unsure. At no time shall Students share personal, sensitive, or confidential information with AI tools, especially AI tools requiring data input.

When a student uses AI tools, a student shall:

1. Review and verify the accuracy of content that is generated by an AI tool;
2. Cite AI tools used as part of an assignment or project as a source, following District citation guidelines; and
3. Be transparent about their use of AI in completing assignments.

Students must ensure all submitted work is their own and properly acknowledge or cite any assistance from AI tools. Students are encouraged to ask questions if they are unsure about the acceptable use of AI tools.

Students should know that AI can be biased or unfair. Students should use AI in a way that is fair and includes everyone, ensuring they do not disadvantage anyone based on race, gender, socioeconomic status, or ability.

The following actions regarding AI tools are strictly prohibited:

- Misuse of AI tools for cheating, plagiarism, or any form of academic dishonesty, including the submission of assignments that were fully generated by an AI tool and presented as original student work;
- Altering or falsifying academic documents or records using AI tools;
- Using AI tools to:
 - Gain unauthorized access to District systems; or
 - Bypass District security measures;
- Using AI tools to produce misleading or false information, imagery, or any form of false outputs about themselves, other students, or staff members.

Students should report any inappropriate content or security concerns encountered while using AI tools to a teacher or administrator.

Violations of this policy shall be handled in accordance with the District's disciplinary procedures.
