Supt's Approval:

CONSENT

BACKGROUND INFORMATION:

Energy for Schools (EFS) is encouraging member districts to participate in a Shared Services Arrangement. Energy for Schools solicited the legal and financial expertise of their attorney David Thompson of Bracewell & Guitiani LLP and Tom Canby of the Texas Association of School Boards to ensure the success of Shared Services Agreement. This arrangement will reduce cost through cooperative purchasing of equipment, supplies, and services that encourage energy efficiency and conservation. All expenditures for these items purchased through the EFS, SSA may be recorded under function 93. This arrangement will also improve district performance under certain indicators amended in the Schools First and potential higher financial ratings.
