SUBJECT: RECOMMENDATIONS FOR CAMPUSES CLOSED TO TRANSFERS FOR 2009-2010

BOARD GOAL: All students will achieve educational excellence.
All systems in the Keller Independent School District will be efficient, an accountable in support of the district’s mission.

FISCAL NOTES: None

ANTICIPATED DATE FOR ACTION: February 26, 2009

Background Information:

- KISD continues to experience growth. The district adds hundreds of new students per year. This growth will continue for several more years.
- This growth has contributed to overcrowding and capacity concerns at most KISD campuses.
- A “closed campus” is defined as a school that is will not consider transfer requests beyond those students who are children of employees at the campus or students who are placed by administration due to special circumstances.

Administrative Considerations:

- Enrollment in KISD is growing at such a pace that early determination of campuses who are (or are expected) to exceed capacity must be accomplished early in order to notify parents who have a need for a student transfer.
- Recommendations of closed campuses are done based on the analysis of growth data, campus capacity, special programs, and core space availability.
