Re: Interior Door Replacements Update - 2013 Bond

During the September 25, 2017 Study Session, I discussed the need to replace several doors at Frost and possibly a door at Roosevelt utilizing the 2013 Bond. At that time, I was unsure whether the total cost for these doors would be high enough to require Board approval. We now know we will need to put out for bid a total of eight doors: six at Frost, one at Cooper and one at Roosevelt. Once the bid is complete and tabulated, I will bring this topic back for Board approval in November.

Please contact me if you have questions. Thank you.
