

October 23, 2018

Good Morning,

I am aware that Thursday is the vote for the policy change I put forth for tuition free school for certified staff. I had planned on attending but am now unable to as that I am going to Mrs. Olson's mother's wake.

I was wondering if you could convey to the board that I appreciate the time and consideration they put in to discuss my proposed change. In particular, I appreciate how Laura Harris and the policy committee are so friendly and welcoming to people who come before them with a request. I wish more staff and community members realized how open the board is to hearing and discussing ideas and issues. Thank you also for your support and guidance through this process. Have a great day!
