Background Information:

ISBE recently notified districts across the State that the Summer Food Service Program (SFSP) which the District participated in during the spring has been extended and would be available until December 2020.

The District submitted its application on September 15th to participate in the program during the extension. ISBE guidance stated that the District must share the signed agreement between the District and Sodexo which must include the per meal rate charged to the district. The existing agreement with Sodexo is not structured based on a per meal rate for charges. To meet this ISBE requirement, a new three (3) month agreement has been drafted for the board to consider and take action on.

Dr. Romano will provide a brief update on the structure of the agreement and transition back to the original program and agreement for the second part of the 2020-2021 school year.
