Re: Board Resolution for Serious Safety Hazard Approval

Article 105 ILCS 5/29-3 requires the School Board to annually review all serious safety hazards approved by the Illinois Department of Transportation to verify that the hazardous conditions remain unchanged. This resolution is required as part of our reimbursement claim for transportation. Approval of the resolution allows the district to provide free transportation to students living less than 1.5 miles and claim reimbursement from the State. This resolution was first enacted in 1980. Without the resolution, the District would only be able to claim reimbursement for transporting students who live 1.5 miles or greater from their school.

It is recommended that the board adopt the attached resolution.
