Re: Discussion of Bid Results for Phase II Projects - 2013 Bond

As you are aware, we have prepared bid specifications and issued Requests for Proposals for the summer bond projects. The due dates of the bids and the presentation dates were shared with the Board earlier this month. The tentative schedule is attached for your review.

Bid results have been reviewed by the construction manager, Barton Malow as well as our owner's representative, Plante Moran Cresa. We would like to present the completed bid recommendations at the Building and Site meeting on Monday February 2, 2015 for the following:

- Bid results for the renovations at Riley Upper Elementary and Emerson Middle School
- Cresa is also preparing the recommendations to extend the contracts with the professional services used in Phase I projects including environmental consultants, security, and commissioning.

As usual, Plante Moran Cresa will have all of the detail information on the bid results available on Monday evening for Board of Education. Please let me know if there are any additional questions.
