

Glendale Board Report - March

Glendale is pleased to welcome a new student to our school. We very seldom increase our enrollment once the school year has begun and so it has caused some very great and positive excitement .

The Rangers were out at our school on February 22. They presented us with an informative program about the advantages and disadvantages of fire. The students learned about how some trees actually need the fire to open their cones and reproduce. The counselor was here on February 17 and gave us some good coping strategies to deal with conflict or when we have strong emotions to deal with. The students made origami fortune tellers with some of the different ways they thought they could learn to handle stress.

The librarian was here on February 23 and told about the trip she has planned to see the Iditarod in Alaska and showed us some videos of the race, as well as gave some of the history of the run. She had an excellent book that told about a winner of the junior dog sled races. We completed our writing assessments and are awaiting their return.

Respectfully submitted,
Ellen Christoferson
