Director of Technology**

DATE: February 24, 2025

TO: Mr. Charron, Superintendent
Waterloo School District Board of Education

FROM: Mr. Nick Hergenroeder, Director of Technology

Technology Board Report

Zahnow Renovation Technology Completion

All technology-related work for the Zahnow renovation has been successfully completed. The updated infrastructure and devices are now fully operational.

Email Phishing Awareness Campaign

A district-wide email phishing campaign was conducted to assess staff awareness and security readiness. The results have been analyzed, and a tutorial is being developed to provide targeted training and best practices for staff.

Technology Inventory for 2025-2026

The technology inventory for the 2025-2026 school year is currently underway. This process ensures accurate tracking of all devices and resources for budgeting and planning.

State Testing Preparations

In preparation for this year's state testing, my team is updating Chromebooks to ensure they have the latest operating system and required testing applications. This proactive approach helps maintain a smooth and efficient testing experience for students and staff.
