

HES *January Board Report*

Some schedule changes for the 2nd semester: Our 4th grade team has been restructured from a 3-way and 2-way split to 1 self-contained bilingual class, and two 2-way splits. Our goal was to maximize instructional time and cut down on the number of transitions per class. Kindergarten schedules were revamped so that intervention will begin after MOY iReady data is collected in mid-January and 3rd grade recess was moved to create a better flow of instructional time after lunch. We have also added our PK classes to a modified specials rotation so that our PK teachers get a more effective planning period and our students get to experience PE and art.

Intervention plans for the second semester have been finalized and will begin the week of January 19. Everyone on campus is helping out with our final push before STAAR and TELPAS: including the principal, assistant principals, counselor, RTI interventionist, and instructional coaches. *See back for raw data.
