Principal's General Narrative:

The Texas Educator's Excellence Grant activities are underway in the junior high. Benchmark tests have been completed and the campus teams are developing individual goals for each student. We have had productive meetings with the Secondary Campus Advisory committee and believe we have developed an improvement plan that will serve us well. We will continue meeting throughout the year to monitor the goals and activities that were developed.

I and all the members of the high school and junior high appreciate the time, effort, and wisdom that school board members give on our behalf. We recognize that without the great leadership from the school board and Mrs. Renken our direction of continued and greater success would not be possible.
