DATE: January 20, 2017

TO: Board Members of ESD Component School District

FROM: Scott Beveridge, Superintendent
Southern Oregon ESD

RE: Local Service Plan/Resolution Programs and Services for 2017-2018

ORS 334.175 (5) (b)

A local service plan must:

After being adopted by the board of the education service district, be approved on or before March 1 by resolution of two-thirds of the component school districts that are a part of the education service district and that have at least a majority of the pupils included in the average daily membership of the education service district, as determined by the reports of such school districts for the preceding year, enrolled in the schools of the school districts.

The following pages include basic information about Southern Oregon ESD's Local Service Plan and the three resolution programs within that plan for the 2017-2018 fiscal year.

We enjoyed the collaborative process engaged in with all districts in our region to discuss and synthesize your needs into this plan for services next year. I facilitated a deep analysis of SOESD services with area superintendents to make significant adjustments in program offerings, using data to drive decisions on the need to reduce some services, to increase or include new services, and to develop a local service plan that could be supported by all component school districts. I look forward to our continued work together to analyze and offer a strong set of services that balance flexibility and stability for districts throughout the region.
