

Campus Improvement Plan Summary 2022-2023

- Fully implement Behavior Multi-Tiered System of Supports for our students through teacher screeners, staff meetings, and direct delivery of social skills instruction.
- Refine the data-driven delivery of our Accelerated Math and Reading classes in order to close demonstrated learning gaps for target students
- Focus the delivery of special education and RTI inclusion support to foster growth based on multiple data sources
- Implement the use of Dreambox/Reading Plus intervention tools for Tier 2 and 3 students
- Continue to expand the use of content specific writing in all areas in order to authentically assess the depth of student knowledge with regard to key TEKS
- Maximize opportunities for staff to be involved in various campus initiatives and to show and be shown appreciation. Establish "HJH Quads" to foster team cohesion and friendly competition. Advertise and incentivize student participation in events/challenges and showing of "school spirit"
- Reinstitute our New Teacher Academy to proactively meet the needs of 1st and 2nd year teachers through a collaborative, year long process involving mentors and structured discussion and learning.
- Continue to provide guidance lessons to all students that are both responsive to and proactive for relevant challenges faced at the junior high level
- Continue to put forth consistent and dynamic communication for staff and parents in order to maximize levels of preparation and participation within the campus community
- Refine and build upon the BRIDGES organization to provide intentional positive interactions, networking opportunities, and real-world experience for a diverse group of students
- Based on staff input and vision, continue an intentional shift to collaborative learning spaces within the classroom
- Continue to transform our library as an interactive learning space in which students are able to access literature, digital resources, hands-on activities, video production, and other collaborative opportunities to extend our classrooms
