Administrative

2/15-19/2010 – Benchmarks 6-11 in Math, Science and Social Studies; our scores were good and on track for a February Testing. The scores were the highest that we have had for a benchmark testing in math. 7th grade math was our lowest and we have restructured their math class to allot an additional 45 minutes of math. 6th and 8th grade students will be offered tutorials afterschool in math. Any High School student not passing the Math and/or Science Benchmark will remain the tutorials and have the option of additional afterschool tutorials Monday, Tuesday and Wednesdays 3:30 – 4:30 p.m.

2/18/2010 - The Math Committee met with Shane Wright, Region 8 Math Consultant, and discussed the last round of benchmarks. Mr. Wright said we were on track with our plan of action on tracking of data to address weaknesses.

2/22/2010 – Meet with Region 8 to began set-up for new master schedule for 2010/2011
