

MARCH 2024

UNITY SCHOOL DISTRICT

Mrs. Jagielo's dual credit Animal Science class had 100% of the students enrolled in the Animal Science dual-credit course earning the college credits! Each student earned 3 college credits that can be transferred to a wide variety of technical colleges and universities in the future. College credits cost, on average, are about \$600/credit. In total, this saved our 16 Animal Science students a grand total of \$28,800 in college credit costs!!!

Unity School District has taken initial steps to begin a strategic planning process. After surveying students and staff to gather initial input, the District is excited to take the next steps to engage the entire school community, including parents and community members, to ensure a meaningful and transparent process.

Any families who are interested in meeting with Mrs. Anderson to explore the many amazing resources offered within our District and county should reach out to any of the school offices to get in touch.
