December 1, 2014

It is my privilege to announce that the Trinity Valley Electric Cooperative Board of Directors has approved the retirement of capital credits in the amount of \$2.1 million this year. This distribution to more than 21,000 current and former members of Trinity Valley Electric Cooperative represents outstanding patronage capital for the year 1986.

Because Trinity Valley Electric Cooperative is owned by members, they share in the earnings in excess of our cost of providing electric service. Each year, these earnings are allocated to current and former members in proportion to the amount of electricity purchased during that year. As determined by the Board of Directors, any margins above and beyond the needs of the cooperative are periodically returned in the form of capital credits.

The retirement of capital credits is just one of the many benefits of being a member of Trinity Valley Electric Cooperative.

Sincerely,

Jerry B Boze
General Manager/CEO
Trinity Valley Electric Cooperative
