

Covid Update

Testing

We are still in the process of getting all the paperwork done with IDPH, ISBE, and the Governor's office. They have requested some additional information, and when I sent it in with a couple of questions I got an automated response saying due to Covid it could be 6-10 days before I get a response. It is a slower process than we would like. We are meeting with Pana Hospital this week to get some things lined up.

Vaccine

Christian County Health Department is lining up a vaccine time for our employees. They are looking at a Saturday in February to do this. They are doing those 65 and older first. Every Health Department is doing it differently. This is voluntary. Pana Hospital is also hopeful of starting Phase 1B.
