Subject: CogAT and Iowa Online Testing Materials

I would like to request to be placed on the agenda for the Committee of the Whole Meeting on November 23 to request the purchase of CogAT and Iowa testing materials. We administer CogAT to our sixth and eighth graders each year. These assessments are typically given in person and we would like to shift to using the on-line version of these materials. We also utilize the Iowa test as a part of our identification process for our Academically Talented programs.

The attached quote is for CogAt testing materials for all sixth and eighth graders, Iowa testing materials, and some professional development to support the shift to online testing.
