DATE 11/15/2024

PROJECT NAME PHSD23 AiPhone Project

SCOPE	PARTS DESCRIPTION	Q	PARTS	EXT PARTS	
<p>Wiring Rough: Plan and design the device placement and wiring routes. Ensure that wiring is concealed or well-protected to prevent tampering. Use appropriate cables and connectors for the specific device model.</p> <p>Terminating Wires: Carefully strip and prepare the cable ends for termination. Follow the manufacturer's instructions for connecting wires to the device and power source. Use waterproof and weather-resistant connectors for outdoor installations.</p> <p>Mounting Devices: Select suitable mounting locations based on the device's coverage requirements. Securely attach the mounting brackets or housings to the chosen surfaces. Ensure proper alignment and leveling of the devices to cover desired areas effectively.</p> <p>Setup and Device Connection: Connect the devices to the central monitoring system or network. Configure device settings and network parameters according to your requirements. Ensure all devices are powered and connected correctly.</p> <p>Programming Devices: Access the device's interface or software to adjust settings as needed. Configure operating modes, triggers, and alerts according to security needs. Set up email alerts and notifications for events if desired.</p> <p>Testing and Documentation: Test each device to verify its functionality and coverage. Check the performance and response of the devices under different conditions. Document device locations, settings, and test results for future reference.</p> <p>Training: Train personnel or users on how to access and use the security device system. Provide instructions on monitoring, controlling, and troubleshooting the devices. Educate users about privacy considerations and legal compliance.</p>	IX-DVF Door Station (Stainless Steel)	4	\$ 1,698.00	6,792.00

PROCOM does not guarantee prevention of all security breaches or unauthorized access. The Customer acknowledges system limitations, including potential missed detections and false positives. Hardware Warranty Duration: 1 year from the date of installation or 30 days after shipment, whichever occurs first. Coverage includes parts and labor for defects in materials and workmanship under normal use and maintenance. No returns will be accepted after 15 days from delivery. PROCOM's liability is limited to 25% of the system's purchase price and excludes indirect damages, security breaches, data loss, and third-party claims. No warranties of merchantability or fitness for purpose are made beyond those explicitly stated. The Customer indemnifies PROCOM against claims from system use, except those directly resulting from PROCOM's willful misconduct or breach of agreement. The Customer is solely responsible for compliance with data privacy regulations and cybersecurity best practices. PROCOM is not liable for data breaches resulting from the Customer's security failures, third-party vulnerabilities, or Customer personnel actions. In the event of a data breach, the Customer is responsible for all associated costs. Both parties agree to maintain confidentiality regarding the system's specifications, capabilities, and vulnerabilities. The customer authorizes repairs, acknowledges an express lien on the equipment, and agrees to pay all collection costs. Past due payments incur a 3% monthly interest rate. PROCOM shall not be liable for any failure or delay in performing its obligations under this agreement due to events beyond its reasonable control, including but not limited to acts of God, natural disasters, war, terrorism, riots, or labor disputes. Any disputes arising from this agreement shall be settled by binding arbitration. This agreement shall be governed by the laws of the State of Illinois, and any legal proceedings shall take place in Cook County, Illinois. The Customer must bring any claims within 6 months of the incident giving rise to such claims.
