Background Information:

Texas Education Code §25.081 allows districts to request a waiver for any instructional days with attendance at least 10 percentage points below the last school year's average attendance if the low attendance was a result of inclement weather, health, or safety-related issues.

The district is planning to submit a waiver for low attendance to excuse instructional days from ADA and FSP funding calculations and to prevent the loss of state funding due to low attendance as a result of health and inclement weather.

Administrative Considerations:

- Waiver to be submitted for low attendance at 21 campuses for a total of 9 unique calendar dates.
