Additional Presenters if Applicable: Rebecca Herrera, Program Administrator

Description: Region 20 supports South San ISD with CLASS observations which gives us a an insite into the everyday interactions between our teachers and students. We can see how well we're providing Emotional Support, organizing our Classroom Environments, and delivering Instructional Support.

Our goal is to use this information to ensure every teacher has the resources and professional development they need to be effective. This helps us ensure that every student is getting the high-quality instruction they deserve, which is the foundation for improving academic achievement across the entire district.

Historical Data: Over the last two years, South San Antonio ISD has deepened its partnership with Education Service Center (ESC) Region 20 to enhance our instructional quality and classroom practices. This collaboration has been central to our school improvement efforts.

Recommendation: SSAISD recommends that the Board of Managers strongly endorse continuing our partnership with Region 20 to conduct CLASS (Classroom Assessment Scoring System) observations. This continued support is a critical component of our strategy to maintain and improve instructional quality across the district.

Goal 3: SSAISD will ensure all students are provided a learning environment centered on their well-being that impacts their learning and success.

Goal 4: SSAISD will collaborate with parents and the community to ensure all students receive a high-quality education.
